RESEARCH & ACADEMIA

- 2012 Computational biology (UNAL): cladograms from DNA sequences, in Perl with LaTeX reports.
- 2010 Social statistics lab using R.

David Orlando Miranda Roa

Full Stack Developer

Bogotá, Colombia · remote

PROFILE

Full stack developer with 15+ years in IT: I started as a hardware, networking and server technician, and since 2022 I have built web products end to end. I led a technical team on a regulatory-compliant traceability platform, and today I ship SEO-ready websites at a marketing agency while serving my own clients. My strength is backend work with solid business logic and taking a project from idea to production, domain and metrics included.

EXPERIENCE

Web & SEO Developer May 2026 – present
DigitalYa · digital marketing agency, Argentina · remote

- 42 websites assigned in five months, 30 already delivered, for law firms and professional practices.
- Own the full cycle of each site: design, Astro and TypeScript development, technical and local SEO, Cloudflare deployment, DNS and domain.
- Automated the agency's workflow with scripts and AI agents: project scaffolding, verified deploys, delivery tracking and Jira follow-up.

Technical Lead Sep 2024 – May 2026
Colombian Cannabis Center · regulated agrotech

- Designed the backend of the farm-management platform with plant-to-batch traceability built for audits (NestJS, PostgreSQL, Docker).
- Led the frontend team behind the commercial website and the internal app, with role-based access.
- Set the technology strategy and the quality and information-security practices.

Full Stack Developer Jul 2023 – Aug 2024
AppTender

- Migrated the legacy backend from Express to NestJS.
- Built endpoints integrating Meta, Brevo and OpenAI, plus frontend features in Vue.

Freelance Full Stack Developer 2023 – present
Daev

- Chez Boaz Tours: rebuild with online booking and deposits; mobile LCP down from 7.9 s to 1.6 s.
- Ópticas Apolo Visión (e-commerce and booking), Climb Rock (industrial safety), Invicto (payment gateways) and others.

IT Support & Infrastructure Technician 2008 – 2022
Independent

- Maintained hardware, networks, operating systems and servers for businesses and households.
- Built management apps on SQL Server and Access, and websites with Dreamweaver.

EDUCATION

- 2022 – 2023 **Full Stack Bootcamp** · Henry · 800 h
- 2023 **Java Upskill** · Henry · 300 h
- 2023 **NDG Linux Unhatched** · Cisco Networking Academy
